Mr. Speaker, I know very well that there are reasons why these considerations should be expressed. Our nation now groans with the weight of public debt and necessary taxation, and our credit must be maintained. I know that there are now floating claims against this nation, not less in amount than \$4,000,000,000, according to my estimate; and these claims, if admitted at all, will never be settled with less than \$2,000,000,000. I do not believe they will be settled for that.

The Consequences of Radical Rule. Mr. PENDLETON, in one of his recent speeches, presented the following picture of radical rule, and its consequences upon the people and their interests. He said: radicals have not only perverted our government, but have bankrupted the country. During these three years of peace we have collected fifteen, hundred and ninety-four millions of dollars. One bandred and twenty-four millions of this have been paid on account of the debt. What has become of the rest? Fourteen hundred and twenty millions vanished, who knows where, in three years! It has gone, most ofit, to the Freedmen's Bureau and to the costly military governments so needlessly kept up in ten States. It has gone to support the 'constitutional amendments' of Congress, the scheme of negro suffrage, and the insatiable carpet-baggers! Fifteen hundred and ninety-four million dollars! That is more than one-tenth of all the property in the country-money, crops, houses, railroads, farms, tools, and everything else! Great Britain, during these same three years, spent one-thirtieth, and France onefortieth of her resources. If you are assessed on all of it, it amounts to \$34 45 a head, for every one of us. Our debt under radical rule exceeds in its burthen that of any other country."

In consequence of O'Baldwin's non-appearance in the ring at the appointed time, the referee awarded the stakes to Wormald, to the intense disgust and diagatisfaction of O'Baldwin and his real friends. That he was sold by Langham and others on this occasion was undeniable, and this diagraceful proceeding had considerable influence in producing the downfall of that long established institution, the English prize ring, even at that time in the last stage of decay and waning popularity. O'Baldwin tried hard, but unsuccessfully, to induce Wormald to enter into a fresh match; but the latter declined, alleging his readiness to fight him in America, where there was less danger of arrest and interruption. The Irish Giant at once accepted Wormald's proposition, and crossing the sea, he promptly issued a pronunciamento, challenging Wormald to freet him according to promise on American soil. For a long time Joseph paid no attention to this defiance, but subsequently, finding the pugllist's occupation gone in England, he also crossed the Atlantic and landed in New York about four months ago. At first he had some difficulty, coming here a comparatively unknown man, in finding backers, but he has at last succeeded, and yesterday the backers of both parties met at the Chipper office, and signed articles for a match for \$1,000 a side, to fight at catch weight, in six weeks time. This match, now that the championship fizzle between McCoole and Coburn has died out, will create considerable interest among the sporting fraternity throughout the country.

healthed as the certain consequence of the decision of the Democratic candidates. Such predictions can be fulfilled only by the setual of the besten party to submit to the variet of the besten party to submit to the variet of the besten party to submit to the variet of the country. The issue is so clearly presented, that it can not be dedected water the country in the people of the United States have never yet had an opportunity to vote. If the radical policy is voted down, do the defeated minority intend to acquisese in that result, or to resist it? And if they resist, do they meen to resist merely by political opposition, or by arms?

Let us consider the consequences of the three courses open to the Republican party after its defeat in November.

First—We will suppose that they submit with prompt and honorable frankness to the declared will of the majority; that is, they consent that the right of suffaces to the declared will of the majority; that is, they consent that the right of suffaces to the declared will of the majority; that is, they consent that the right of suffaces to the declared will of the majority; that is, they consent that the right of suffaces to the declared will of the majority; that is, they consent that the right of suffaces to the declared will of the majority; that is, they consent that the right of suffaces to the declared will of the majority; that is, they consent that the right of suffaces to the declared will of the majority; that is, they consent that the right of suffaces to the ballot with the whole white race acquisecing in their exclusion, and their own race divided. In most of the Southern was a successfully asserting their claims to the ballot with the whole white, and their own race divided. In most of the Southern of large portion of the white, and the presence of armies, to confer the ballot upon the negroes—a proof, which the negro intellect is capable of appreciating, that they are unable to cope with the white race unassisted. The negroes, in view of the fact that the

view of the fact that they have been crutched up by the army and Freedmen's Bureau, and by white disfranchisement, understand their own weakness too well to resist a change in the basis of suffrage, unless they are instigated and set on by parties outside the Southern States. If, therefore, the Republicans shall recognize the right of the majority to determine the great issue now pending, there can be no disturbance.

Second—We will inquire what will be likely to ensue, if the Republican party, after being beaten in November, shall keep up a political agitation for forcing negro suffrage on the South by Federal authority. They could, no doubt, fill the negro mind with discontent; but so long as that discontent stopped short of overt acts, it would be little regarded. The Republicans, after the election, will be deprived of their present machinery for acting on the negroes. The Freedmen's Bureau, supported by the army, is a vest political machine through which radical influence is brought to bear immediately on the negro race in every part of the South. If the radicals get into close contact with the negroes after the Presidential election, it must be by emissaries paid out of their private pockets, and no longer out of the public treasury. The consequence will be that, except in the large towns, the negroes will be surrendered to the influence of their white neighbors. Moreover, it will be found that the very Senators who have been elected by the radical ergistatures will go over to the other side when they see that the radical game is played out. They are all adventurers and place-hunters; and the prospect of white ascendancy will lead them to court the favor of the white race. A man important enough to be a Senator naturally covets social standing in his accommunity. The first Republicant them to court the favor of the white race. A man important enough to be a Senator naturally covets social standing in his own community. The first Republican members of the Senate who will be found to acquiesce in the election of a Democratic President, will be those who have been sent to Washington by the reconstructed governments. Our Republican Senators will have some remains of a party at home; those carpet-hag Senators Senators will have some remains of a party at home; those carpet-bag Senators will have none. To hold any relations with the States they pretend to represent, they will have to change their polities; and being mere adventurers, they will change them without scruple or shame when they find it to be for their interest. We conclude, therefore, that no distribution in the Sauth-vill.

from the election of Seymour, if the Republicans shall thereafter resist the Democratic policy only by political opposicoratic policy only by political opposition.

Thirdly-We are to inquire what will be the consequence if the Republicans attempt to stir up the negroes to violence and insurrection. It is supposable enough that they might do this if they had anything to gain by it; for they are utterly unscrupulous. But it would damage more than it would help them, and they will not try it. If forcing negro suffrage on the States by Federal authority is not sanctioned by the people in this Presidential election, it must be manifest to all competent judges that it never will be; and a party wishing to regain lost power will not take so unlikely a method as stimulating negro insurrections of which the blame would be charged upon itself. Politicians will have no motive, and the real friends of the negro no wish, to push this controversy any further, after a majority of the people have decided against the realies. no wish, to push this controversy any further, after a majority of the people have decided against the radical policy. The success of the Democratic candidates will therefore be the harbinger of lasting tranquility. Negro suffrage will be regarded as a question for the States; and if every Southern State should decide it in a different way, no outside parties will attempt to revise its decision.—New York World.

ARREST OF A MURDERESS.—Mrs. Doo-little has been arrested in White county and taken to Cass county and placed in jail at Logansport on a charge of com-plicity in the horrible murder of Reyn-olds, some three or four months ago. She will be tried at Montucello, White county, in October, unless she, turns, State's evi-dence against the other murderers, which it is, thought she will do,—Lafayette Journal;

"Honor to New York! Her Governor has acted like a man who knows when the time for partisanship is at an end. Her gallant Seventh is now at Harrisburg, and, side by side with our brave Pennsylvanians, preparing to resist the invaders. This is the true spirit of brotherly love. But while the city of New York is doing so much to save our State, what is the city of Philadelphia doing?"—Forney's Press, June, 1863.

Grant hopes, from his former con-quests that he can carry Indian a by his akill in Indian warfare; but, unfortun-stely for his hopes, the Indianians will show him that since he has shandoned, his preference for copper, and chosen chapy for his ided, that the Hoosiers have all headme Horatio's.

We referred yesterday to a visit made by a band of Jederson County vigitants to the Scott County jail, at Lexington, and are new able to give, some further particular at a set of the strange affair.

It appears that a band of men, about eighty live in number, arrived at Vienna from Seymour, on a special train, at twelve o'clock Sunday night. The distance from Vienna to Lexington, the county seat of Scott, is about eight miles, the road being a bad one for night traveling by strangers. The Seymour men at once proceeded to various farm houses in the vicinity of Vienna, and arousing the occupants ordered them to hitch up their horses and wagons for the purpose of taking the vigilants to Lexington. Resistance was useless, as the persons demanding transportation were evidently well armed, and were terribly in earnest. The wagons having been got in readiness, the whole company started on the Lexington road, arriving at that place at about three o'clock Monday morning.

The jail at Lexington is an isolated building, no residence being attached to or near it. A committee at once proceeded to the residence of Mr. Amos, the jailor, and saying there were two men confined in the jail, who they wanted, demanded the keys of the building. Mr. Amos told his early visitors that there were no men confined in the jail, and satisfy themselves of the fact. They insisted, however, that Mr. Amos should accompany them to the jail and open the doors. Resistance being useless, he got up, went to the jail, opened it, and the men, after examining it, went away satisfied that their intended victims were not there.

On the supposition that the two Renes starts of the fact that the two Renes starts of the supposition that the two Renes starts the contract of the supposition that the contract of the supposition that the two Renes starts the supposition that the two

isfied that their intended victims were not there.

On the supposition that the two Renes might arrive either by the Charlestown or the Madison road, a force is reported to have been sent to watch these avenues. The larger portion, however, returned to Vienna, in the expectation that they would arrive on the morning train from this city. When the train arrived, consequently, about six o'clock A. M., the platform of the depot was crowded with strange men, whose faces were unfamiliar to the citizens of the village and the passengers on the cars. Finding that the men whom they had come to hang were not on board, and learning that they were still confined in the New Albany jail, and would not be taken to Scott county for trial for some months to come,

THE proprietor of this celebrated medicine
I justly claims for it a superiority over all remedice over effered to the public for the safe, certain, speedy and permanent cure of Ague and Fever, whether of short or long standing. He refers to the entire Western and Southwestern country to bear him tostimony to the truft of the assertion, that in no case whatever will it fail to care, it the directions are strictly followed and carried out. In a great many cases a single dose has been entirelient for a care, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, lowever, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long standing cases. Usually, this medicine will not require any aid to keep the bowelshin good order; should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

BULL'S

WORM DESTROYER

To my United States and World-wide Renders.

I have received many testimonials from professional and medical men, as my almanaes and various publications have shown, all of which are genuine. The following letter from a highly educated and pepular physician in Georgia, is certainly one of the most sensible communications. I have ever raceived, Dr. Clement knows exactly what he speaks of, and his testimony deserves to be written in letters of gold. Hear what the Doctor says of BULL'S WORM DESTROYER:

VILLANOW, WALKER COUNTY, GAL, June 29 1866. June 29 1866. I
Dr. John Bull.—Dear Sir: 1 have recently given your. Worm Destroyer" several trials, and find it wonderfully efficacious. It has not failed in a single instance to have the wished-for effect. I am doing a pretty large country practice, and have daily use for some article of the kind. I am free to confess that I know of no remedy recommended by the ablest authors that is so certain and apeedy in its effects. On the contrary, they are uncertain in the extreme. My object in writing you is to find out upon what terms I can get the medicine directly from you. If I can get it upon easy terms, I shall use a great deal of it. I am aware that the use of such articles is con-Jam aware that the use of such articles is contrary to the teachings and practice of a great majority of the regular line of M. D. 2, but I see no just cause or good sense in discarding a remedy which we know to be efficient, simply because we may be ignorant of its combination. For my part, I shall make it a rule to use all and any means to alleviate suffering humanity which I may be able to command—not hesistating because some one more ingenious than myself may have learned its effect first, and secured the sole right to secure that knowledge. However, I am by no means an advocate or supporter of the thousands of worthless nostrums that flood the country, that purport to cure all manner of disease to which imman fieth is heir. Please reply soon, and inform me of your best terms.

BULL'S SARSAPARILLA.

ad the Captain's Letter and the Letter

BENTON BARRACES, Mo., April 30, 1866. BENTON BARRACKS, Mo., April 30, 1866.

DR. JORN BUL.—Dear Sir: Knowing the efficacy of your Sarsaparilla, and the healing and beneficial qualities it possesses; I send you the following statement of my case:

T was wounded about two years ago—was taken prisoner and confined for sixteen months. Being moved so eften, my wounds have not healed yet.

I have not sat up a moment since I was wounded. I am shot through the hips. My general health is impaired, and I need something to assist nature. The have more faith in your Sarsaparilla than in any thing else. I wish that that is genuine, Please express me half a dozen bottles, and chiige

CAPT. C. P. JOHNSON.

St. Louis, Missouri.

P. S. The following was written April 30.

Dr. John Bull.—Dear Sir: My husband, Dr. C. S. Johnson, was a skillful surgeon and physician in Central New York, where he died, leaving the above C. P. Johnson to my care. At thirteen years of age he had a chronic diarrhes and scrofuls, for which I gave him your Sarsaparilla. It CURROMES, I have for ten years recommended it to many in New York, Ohio, and lowa, for according, fever-sores, and general debility. Permet success has attended it. The curse effected in some cases of serofula and fever-sores were almost miraculous. I am very anxious for my son to again have recourse to your Sarsaparilla. He is fearful at getting a spurious article, hence his writing to you for it. His wounds were terrible, but I believe he will recover.

Tue Radical Rotten Egg Brigade, o Clermont.
The Journal's account of the affair at

Clermont, published in that paper yeserday morning, is a tissue of falsehood from beginning to end, but nothing else can be expected from a paper so partisan as to mistepresent their political opponents on every possible occasion, and to cover up, or gloss over, by downright lying, the dirty work of the cowardly scoundrels in the radical interest, who incite, or engage in, insulting and mobbing their fellow citizens.

ng, the martial band of the White Boys in Blue stopped at Clermont to await the arrival of a wagon load of their friends, who were some distance in the rear. When the second wagon came up, displaying the uniform of the White Boys in Blad, the Clement crewd gave three cheers for Grant. This was responded to by the men in the wagons, with three eers for Seymour and Blair. The Cleronters then uttered ground for Sey nour and messiled the party by yells of copperhends." " butternuts." " rebels. traitors," "cowardly draft snesks, sons of b-is," ste, and it was only by he earnest exertion of the officer in harge of the men in the wagons that a ight was prevented, as the nature of the

aunts and insults heaped upon theme eemed to make a fight justifiable on their During the stay of the band at Clermon the driver watered his team, and several of the boys got out of the wagon to get a drink of water. Some of them may possibly have saked the chances of getting something stronger, and one of the men, and only one, went into a store for the purpose of getting some crackers and heese, which was obtained and paid for by a citizen of the place. Not a man in he second wagon got out of it or left his mont gentle-folks let loose with their rad-cal billingsgate slang, no disorderly lan-

ruage was made use ofby them, and then nly in retaliation.
All along the route, whenever the boys met any one, they cheered for Seymour, ood many instances the cant phrase of a rope to hang him," was used by both ides. Just beyond Clermont, they met a nan in a buggy, who shouted for Grant in reply to a cheer for Seymour. One o the men remarked to him that "Clerr was considerable of an aboution be and another "guessed they must love the nigger awfully, from the appearances of wool in their teeth."
